About Us

- Since 1980, **Shraddha Brass Products** is developing and manufacturing innovative products in the areas of Metal Technology having wide range of application.
- The family business, which is lead in second generation by the owners, has established itself as a reliable partner for domestic as well as international clients.
- The years of experience and excellent Quality consciousness has made its own name in the field of Precision Metal Parts manufacturing and supply.
- Driven by a vision to build the company into a temple of technology through team work, the organization has grown manifold from manufacturing Brass Components for growing Engineering Demands.
- Continuous process improvement and fast adoption of State-of-the-art technology has led Company in becoming a leader in innovating manufacturing BRASS Components.

About Us

- ***Culture Statement***

- Honesty as a high priority.
- A positive attitude toward our work, responsibilities and life in general.
- Reliability and trust as high priorities.

- ***Mission Statement***

- Shraddha Brass Products is committed to providing customers with high quality products and services.
- We achieve this by anticipating the needs of our customers, continually improving our processes, and recognizing the value of our people.
- To become the global leader in the design, manufacture, and installation of innovative engineered in manufacturing solutions.

About Us

• History

- 1976-started learning in metal industries and machining of components.
- 1983-Foundation Stone was laid Named Shraddha Brass Products.
- 1987-Expertise in specific field of brass industries in limited Parts.
- 1992-work expanded, moved to new location. Expertise in all field of brass
Happy Customers!
- 1998-included forgings and upgraded machineries to new level to enhance production.
- 2006-we introduce ISO 9001, and other certificates from government & Promotion Councils.
- 2008-move to new place with increased production capacity.
- 2012-website went online, started fulfilling demands of other countries.
- 2018-meeting growing demands and customers, moving to new location soon.

We offer

- Precision Turned Components
- Forged Components
- Connectors
- Terminals
- Male Female Pins
- Stamped Parts
- Moulding Inserts
- Bushes
- Fasteners
- CNC-TMC-VMC turned parts
- Auto Engine Parts
- Bathroom Fitting Parts

A part from these we manufacture parts as per custom drawings.

Our Work

Infrastructure

Foundry: 2 Casting Furnaces with capacity of 6 MT per day.

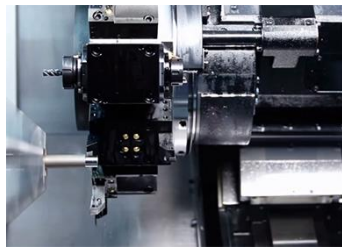

Testing Lab: Metal composition analysis to get requisite compositions.

Extrusion Press: To get premium quality, we have in-house Production of extrusion rods (Bar Stock).

Forging : Forging Press to get forged metal of required design .

CNC/TMC Machine: CNC machine to obtain highly precise degree for industrial products.

Qualified Team: We follow the process oriented approach with highly qualified staff to get optimum results.

Quality

- We at Shraddha Brass Products, follows the process oriented approach in order to get optimum results.
- We are certificated by DIN EN ISO 9001:2008 to ensure a consistently high quality standard of all of our products.
- Our products are tested at all stages during the process and pass through several inspection process.
- Our customers appreciate our high standard of quality as well as quick solutions. We are proud to repeatedly be rated as a "Level A Supplier" by our customers.

Quality

- We have device and systems for following process.

1. Material Testing and Analysis
2. Dimensional check and testing.
3. Dimensional gauges
4. Threading gauges
5. Surface Treatment thickness
6. Torque and tension testing
7. Inspection-in process
8. Final inspection
9. Hardness testing

- **Our Quality Policy**

- At Shraddha Brass Products, our mission is to work as a team and achieve continual improvement in Productivity, Customer Satisfaction & Employee Growth with an emphasis on strong design and engineering.

Facilities & System Procedures

- State-of-the-art high quality measuring equipment's.
- Well documented inspection process at all stages
- System for rejection analysis
- Basic Root cause analysis for customer complaints
- Corrective Action formats
- Guidance and need based training to all suppliers and employees
- A vibrant, skilled and knowledgeable workforce committed to customer satisfaction is our strength at Shraddha Brass Products.
- Our workforce is keen to learn newer manufacturing processes, along with their technical specifications and international standards to improve performance at all level.
- Each member plays a part in decision making with his or her suggestions. Care is taken as per statutory requirements to ensure safety of the work force.

Standards

- ***Material***
 - Copper Alloys as pre required standard.
 - Includes all type of Bronze.
 - Brass BS-249, BS 2874 -CZ 121 Pb3, CW 614 N EN 12164: 1998
 - Brass IS-319 Free Cutting Brass, BS 218 Forging Brass
Lead Free Brass
CZ -360 High Grade brass,CuZn39Pb3/2
Any special brass material composition as per customer specifications.
 - ROHS COMPLAINT
 - Other than Copper alloys we also Machine Steel and Aluminum Grades.

Standards

- **Surface Finish**

- Natural
- Nickel Plated
- Chrome Plated
- Tin Plated
- Zinc Plated
- Any type of plating with microns as per Customer Specification.

- **SURFACE TREATMENT**

- Annealing treatment

Capabilities

Why Us

Quality

- By Implementing Process-Oriented approach we, are able to deliver premium quality of products.

Expertise

- 30 Years of experience in the field of Brass Engineering Makes us more reliable in manufacturing Products with International Standards.

Infrastructure

- The inherent quality emphasis throughout the manufacturing process on most modern machinery & equipment has gained the coveted international mark of quality management systems - ISO 9001.

Defect-Free

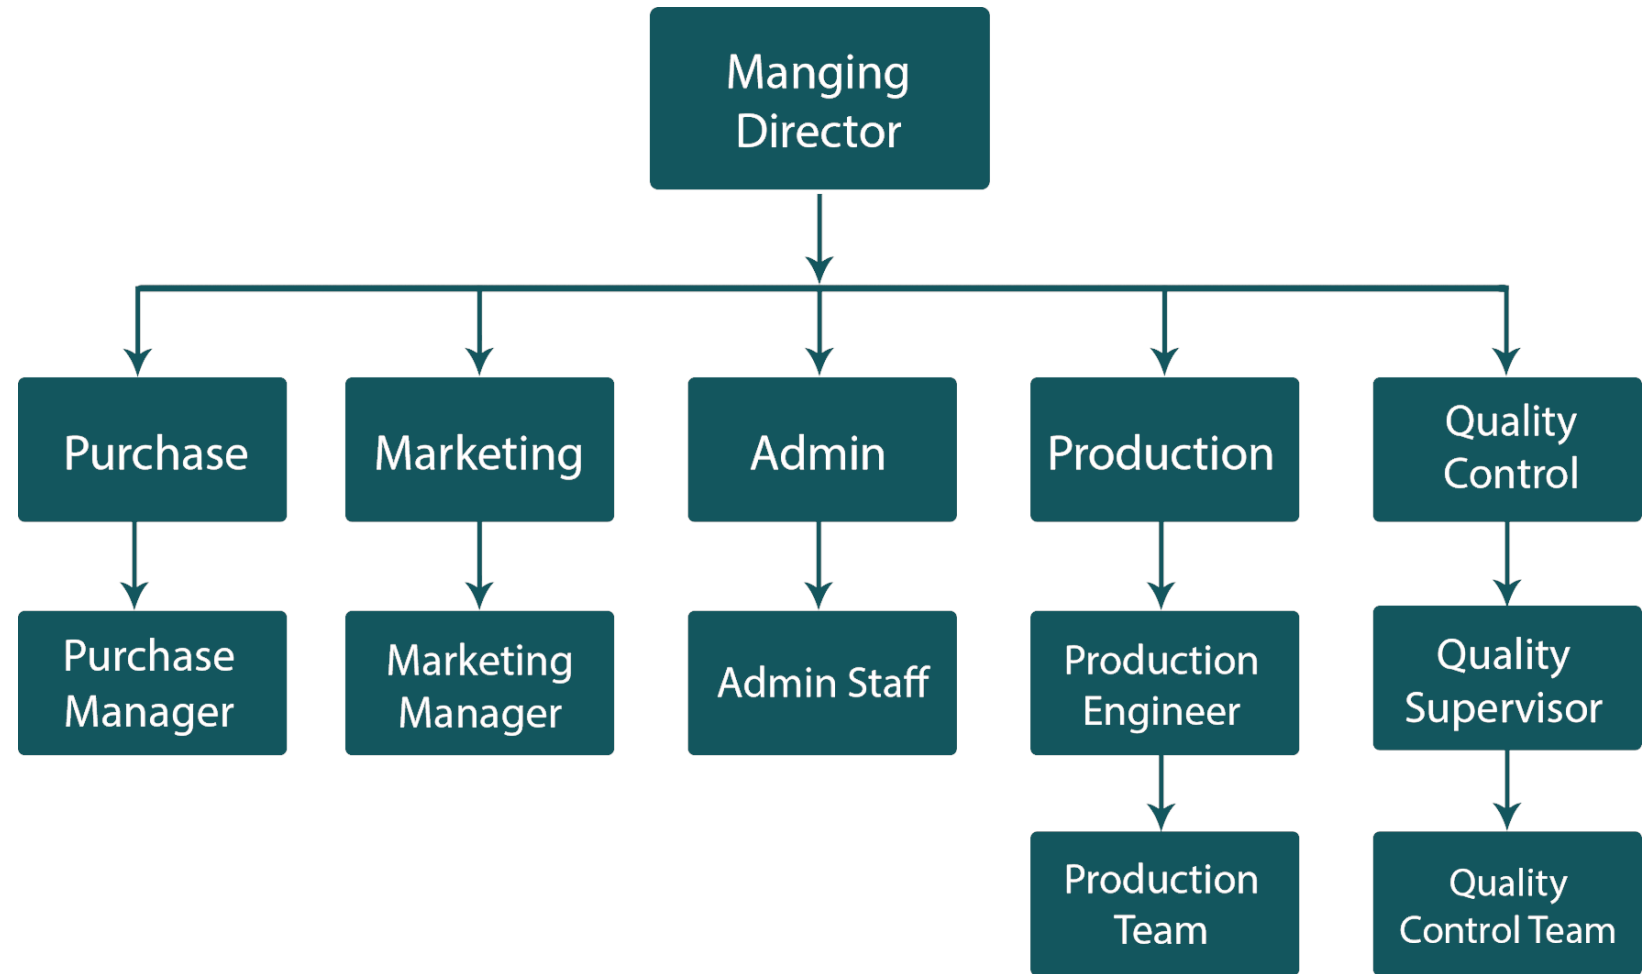

- Our infrastructure allows us full quality control of product at each and every step to ensure defect free product.

Delivery - On-time

- As time is important factor in Production, We offer delivery of Products within prescribed time.
